The Origin of the Recent War Rumors.

Exciting Debate in the French Assembly.

FRANCE.

Assembly Proceedings.

PARIS, May 18.—In the Assembly to-day Minister Dufaure submitted a bill regulating the relations between public powers. It provides that the Senate and Chamber of Deputies shall meet annually in January, and sit at least five months in the year. The President of the republic may communicate with the Chambers by message. The Chambers are obliged to reconsider any decision if the President makes a request to that effect. The President and the Ministers can be impeached only by the Chamber of Deputies, and must be tried by the Senate.

M. Dufaure also introduced a bill relative to the organization of the Senate. It provides that elections for Senators shall be ordered by a decree, which must be issued six months before the day appointed for the holding thereof.

A motion was made by the Minister that the bills be referred to the Committee of Thirty.

The Left opposed the motion, and urged that the bills be referred to a special committee. M. Dufaure's motion was defeated, whereupon M. Batbee announced that the committee resigned their functions.

M. Laboulaye, a member of the Committee of Thirty, objected that M. Batbee had no right to tender the resignation of the entire committee.

The Duc d'Audiffret Pasquier, President of the Assembly, declared that the resignation of the committee was unprecedented. The committee should first meet and consider the subject, and those of its members who propose to resign should notify the presiding officer of the Assembly of their intention.

M. Dufaure informed the House that the defeat of his motion would not be considered a Cabinet question.

GREAT BRITAIN.

The Origin of the Recent War Rumors.

LONDON May 18.—The *Pall Mall Gazette* finds the origin of the recent war rumors in the following circumstances: The Versailles Assembly, just before adjourning for its last recess, passed a bill which had been for some time under discussion concerning the cadres of the French army. Later Prince Bismarck addressed a circular dispatch to the diplomatic representatives of Germany abroad, complaining of the adoption of a measure which was described as "calculated to endanger the peace of Europe." The contents of the dispatch were, according to instructions, orally communicated by the German representatives to the Governments to which they were respectively accredited. The existence of this dispatch was divulged, and gave rise to the reports which have lately caused so much alarm throughout Europe.

An officer of the Treasury Department is in town, under instructions from Secretary Bristow, to thoroughly examine the records of the silk and lace importations of the past two years, in connection with the developments brought out in the recent arrest of Lawrence, Deputy Collector De Long, and others. It is stated that frauds in the importation of crape and mourning goods have been discovered, as having extended through the past two years, in the Appraiser's department of customs in this city, and one of the examiners has resigned.

The examination of the books and accounts of the wholesale whisky dealers and rectifiers, by Treasury officials, is going on here very thoroughly, but no irregularities are found.

The Congregational Union.

The following letter explains itself:

"*To the Editors of the Tribune.*

"Sir: In your report of the election of officers of the Congregational Union in your paper on Friday last, it was stated that the Rev. Dr. George B. Bacon, D. D., declined re-election as trustee of said society because of his objection to Henry C. Bowen as a member of the board, and that I was chosen in his place. I was not present at that meeting, nor did I know of my own election until I saw the report in the *Tribune*. Allow me to say, therefore, that I most heartily sympathize with the action of my friend, Dr. Bacon, and for the same reasons that led him to decline a re-election I have declined to become his successor. I ask the privilege of this statement, because one less public might lead some to think that Dr. Bacon stands alone. I believe our churches are with him. At least it cannot be doubted that they would prefer to have their contributions dispensed by men of unquestioned Christian character.

"Very truly,

ICE CREAM IN THE PARK.

The Park Commission Considering the Propriety of Starting a Saloon.

At the meeting of the Allegheny Park Commission last night, the expediency of transforming the Pagoda near the lake into an ice cream saloon was discussed. It was thought that seats might be provided and awnings put up around the Pagoda, which would give accommodation to hundreds of people. Mr. Patterson was appointed to ascertain what the change would cost, and Mr. Lea to receive proposals from confectioners for the rent of the saloon. If the bids are favorable, showing that the change can be profitably made, it will be consummated at once.

Evidence of Superiority.

The excellence of the *Dunlap Hats* could not be attested in any better way than the general desire of dealers to secure this celebrated make of hat; and being baffled in this, as Mr. Dunlap has his goods sold by agents, choosing those whom he wishes to represent him in each city, they are driven to all kinds of resorts in order to deceive the public.

The latest device is to have a hat made somewhat similar to Dunlap's silk, and by displaying the same in their windows with his name on, lead the public to think they are really genuine.

We are the *exclusive* agents for Mr. Dunlap. All other parties purporting to sell his goods are imposters. *None genuine unless bearing his trade-mark.*

THE SCHOOL TROUBLES.

Meeting of City Principals Last Night—What They Know About the Evils in our Ward Schools—The Cramming Process Candidly Confessed by Some—The High School Examination Discussed—What is to be Done?

The Committee on Text Books and Course of Instruction of the Central Board of Education held a meeting last night, in conjunction with the Principals of the ward schools of the city, for the purpose of considering the course of study in the public schools and, if possible, devising a remedy for some of the evils which our educators think are assuming rather serious proportions. The meeting which was held at the Board of Education rooms, on Fourth avenue, was presided over by Mr. James M. McEwen, who stated that many had doubtless recognized the fact that during the last year particularly of the course in the ward schools, the pupils are required to pursue too many studies, involving a great deal more labor than they are capable of performing properly. The result of this forcing process is, that instead of becoming thorough and proficient in the essential branches of study, they are necessarily very superficial, and the care and labor bestowed upon them to a great extent thrown away. The purpose in requiring so much labor from pupils during the last year seems to be to prepare them for the High School examination, assuming, if teachers cannot have a fair number of pupils pass successfully, that, consequently, they are not successful teachers. As possible ways of getting out of the difficulty, Mr. McEwen submitted the following suggestions: If there are too many studies might they not be successfully reduced? If the time allotted to them is too short, might it not be extended? If one of the causes of the trouble is in the High School examination, would it not be advisable to do away with it?

The Chairman requesting the Principals to express their views on the subject, Prof. Andrew Burtt said that he favored striking algebra from the course of study in the ward schools, also a part of grammar and geography and alloting the time bestowed upon them to other and more important branches. This opinion was concurred in by Mr. Fulton, of the Hiland school, and Miss Knowles, of the Birmingham school. Mr. Gourley, of the Grant school, advocated the abolition of the High School examination and extending the course of preparation among the ward pupils for the High School from one to two years, which would afford the teachers ample opportunity to give the scholars under their care a solid, instead of a superficial preparation. Mr. McClymonds, of the Humboldt school, was strongly opposed to the abolition of algebra. He thought it a very important branch of study, particularly in the teaching of arithmetic, and he said that he could instruct in both branches at once without occupying any additional time. He favored increasing the studies, and lengthening the time. Mr. E. M. Still, of the Moorhead school, didn't advocate throwing out any of the studies except algebra, which he thought should only be taught in the High School. As for book keeping and physiology he was inclined to the belief that very little of either would suffice for the scholars of the ward schools. In conclusion he summed up his argument by stating his position to be in favor of throwing out one study and requiring a more rigid examination for admission to the High School, which would have the effect of keeping the pupils in the ward schools longer. Mr. Forney was opposed to increasing the number of branches taught, and thought that if it should become necessary to throw out any study that it should be algebra. He considered it wrong to educate pupils for the High school alone, but to do them as much good as possible while they were in the ward schools. Mr. Harrison, of the Minersville school, thought the pupils could get along without algebra, and as for grammar he said that only enough of it should be taught to enable the pupil to speak the language correctly, and as far as technical grammar is concerned he thought the teaching of it absurd, from the fact that the fine distinctions it makes only tax the memory and do not reach the intellect. Mr. Wilson, of the Oakland school, said that in his opinion the Principals were directly responsible for the very difficulty which they had met to discuss. He alleged that if the teachers would think less of the High School, and pay less attention to it and more to the scholars, the result would be better for educational interests. Mr. Ford, of the Second ward school, coincided pretty much with the remarks of the gentleman who immediately preceded him. He stated that he knew instances where Principals had lost their situations because they had not been able to prepare a class for the High School, which public opinion seems to demand. He blamed the Principals somewhat for the manufacture of the public sentiment, which requires a class for the High School at the end of every year, to reach which result they must necessarily resort to the stuffing process, which nearly every teacher who had spoken confessed to using. If the grades were raised the teachers would only stuff the harder in order to meet public expectation. He believed that the course or the time of studies in the ward schools could not be increased, but that the High school examination could be abolished with good results. Mr. Logan, of the Springfield school, thought the fault was considerably in the High school examination in which insignificant, technical questions which had no real bearing on the subject were asked. In his opinion if the examinations were only so arranged as to bear a proper relation to the subject more pupils would pass. By way of illustrating his meaning he said that the scholars studied Lossing's history, which is a big book, but when the time for their examination upon it arrived questions were asked regarding which the book gave no information. Mrs. Burt, of the Washington school, said that in her opinion the present process of study is productive of physical injury to the scholars. She thought the number of branches the pupils are required to study during their last year in the ward schools should be lessened. She favored the dropping of algebra and philosophy from the course, and the continuance of the High School examination, to prepare for which she didn't think there was any necessity for resorting to cramming or stuffing.

As a remedy for the difficulty, Dr. Jillson recommended the dropping of algebra and philosophy, or an extension of one year in the ward school course, and he didn't look with a favorable eye on the discontinuance of the High School examination.

City Superintendent Luckey said there had been no acknowledgement of stuffing in the ward schools except in the High School classes, and as these classes are directly under the supervision of the Principals the fault must therefore lie with them. He stated that the proposition to postpone the High School examination one year for the purpose of giving the pupils another year in the ward schools would fail for the reason that parents are desirous of availing themselves of the services of their children as soon as possible and that if they were not admitted to the High school they would find their way to the Western University, Curry and Newell Institutes and other private institutions of the city. It is well known, said Mr. Luckey, that the standard for admission to the High School here is twenty per cent higher than in any other city in the United States except New York, and he recommended the establishment of intermediate schools for the preparation of pupils, after they leave the ward schools, for the High School. He said that by massing several schools in these intermediate schools, which should be suitably located, each teacher could be given the full quota of forty or forty-five pupils, whereas they now have but seven or eight, and thus reduce the expense.

Up to this time the discussion had been solemn and dignified, but at the conclusion of Mr. Luckey's remarks, Mr. Gourley took the floor and made a warm speech in favor of paying more attention to the ward schools, regardless of the High school, or what the consequences might be to it. He was followed by Mr. Cochran, of the High school faculty, who argued in favor of the establishment of a system by which the ninety-nine pupils who leave the ward schools to enter upon the active duties of life will receive as much care and attention as the one pupil who goes into the High school.

After some further debate the meeting adjourned without anything definite having been arrived at, except perhaps the knowledge that in many instances the classes for the High school are crammed.

WEDNESDAY, MAY 19, 1875.

BONDS at Frankfort 99.

PETROLEUM at Antwerp 26.

GOLD closed in New York yesterday at 116½.

How evanescent is fame. "Judge Kilpatrick" is said, by the Philadelphia papers, to have made some remarks at the Greensburg centennial.

IT is again current that ex-Senator Scott, who has become a Pittsburgher, very much to our gratification, has been offered and declined the position of Secretary of the Interior.

THE speeches delivered by Vice President Wilson, at the South, are in a cheerful and pleasant vim complimentary to the order of things brought to his attention. The fact that he thus speaks is used by the "independent" journals to point the idea that the South has always been calm and quiet. What more peaceable than this Southern country,—*ergo* it has always been so in the logic of these gentry. After a little we may have a positive denial of the fact of the rebellion.

GENERAL SHERMAN'S book seems likely to create a literary ferment,—his outspoken opinions being challenged in a number of cases. The outcome will be a close criticism of particular portions, by parties who were actors in the parts played. We will thus get the personal views of different individuals, who certainly had opportunity to know of special events, and thus material will be provided for a thoroughly impartial and correct history of the war. If the volumes written by General Sherman serve no other purpose, they will accomplish a very beneficial result.

THE violation of trust, under circumstances that invoke obloquy, is not confined to persons in the Governmental employ. The Philadelphia papers note the issue of fraudulent railway stock, by a person who has hitherto been highly respected as a high minded, excellent man of business, of proud social position, and reasonable wealth. Had this occurred by a person in the service of the Government, we should have had many wise comments on the tendency of govermental service to corrupt morals, and undermine integrity. But here is one of the many instances of wrong in violating trust, in what is, relatively speaking, private life. That it may not be said that he is a Republican in any event, we will add that the Democracy proposed him as a candidate for a responsible trust in the city.

THE Belgian trouble, about which Bismarck has been corresponding, and which has been finally settled, proves to have been less serious at any time than seems to have been generally apprehended. Lord John Russell, when the subject was pending, suddenly asked the Ministry in open Lords, what were the contents of the letters that had passed, and intimated that they meant war. Lord Derby denied this, but declined to furnish the papers. The day after the interpellation was made, the Belgian Government published all the papers, and it was found that the most agreeable spirit pervaded it. There was really nothing in the entire subject, except that Bismark desired to have Belgium enact laws to repress Ultramontane violations of the Treaty of Neutrality, and the Belgians simply sought to know just what was wanted, and were really ready, at any time, to enact the proposed laws.

NEWS comes from New York that the Secretary of the Treasury has only broken the crust of the whisky frauds, and that a vast deal more of fraud and villainy remains to be exposed. Parties seem to have sent clandestine offers of evidence, on some terms not understood by us. We hope that all reliable offers will be accepted, and the work of exposure pushed to the full limit. This country needs the purification that will attend the breaking up of silk and whisky frauds. But while this good work is going on, we hope that right measures will be taken to provide against the recurrence of such frauds. The fact is thrown in our faces that England collects three times as much per gallon on whisky as we do, and collects it fully and without scandal. Why? Because she has severe laws and enforces them. The first utterance of the whisky Ring, when exposed, was a threat,—that it would break down Bristow, Grant, and the Republican party, if a compromise were not agreed to. This shows the secret of the wonderful audacity in wickedness that was shown. These men had no thought of being punished, and have not now. We must learn them that the law carries a penalty for violation that will be certainly enforced. Then we must reach right men for office. It does not appear that there were so many corrupt as inefficient men in charge of the Internal Revenue. Strong, honest, alert men are needed for the places to be filled.

LOWER CALIFORNIA is a speculative region of various merits and demerits. Gen. Butler is at the head of a company called the "Lower California Navigation Company," which has a varied, and, generally speaking, sorrowful existence. Emigrants were imported, but they gave up in disgust. Speculators were sent out, but they saw no profit in the enterprise. We are now gravely informed, and the statement is probably correct, that Lower California, as well as Arizona, is a grand sheep-raising and wool-growing region; that there are immense tracts all over the northern portion of Lower California well supplied with grass and water, and of little value for other purposes, and that, except for the difficulty of reaching the grazing regions in Arizona with large flocks of sheep, there is no place in the world better suited for the business than that Territory. In the southern section of the State of California the flocks of sheep are increasing rapidly, and the new emigration from the Atlantic States seems to prefer that section. Wool is already so large an interest in California that the annual clip in 1874 reached fifty million pounds. As regards Lower California, being Mexican territory, and the inhabitants peculiarly hostile to Americans—many of whom have suffered outrageous treatment there—there is a slight trouble in meeting expectation, because of the uncertainty of life. We mention the drawback that all phases of the question may be fully understood.

THE Governor and Council of New Hampshire have deliberately counted out two Republicans who were elected Senators, and given the places to Democrats. The votes for one were rejected because his name is Nathaniel Head, whereas he was balloted for as "Natt Head." Four thousand voters in District No. 2 cast ballots in good faith for Natt Head. They had known Mr. Head always by that name. He had received Government appointments as Natt Head; had signed all official documents as Natt Head; had been elected to positions of responsibility and honor as Natt Head. They were not present at any christening ceremony when he was called Nathaniel Head. Natt Head was the man they wanted to be Senator; and there is no earthly doubt as to the person designated by their ballots. The election in District No. 4 was equally honest. Nearly 3,500 votes were cast for George E. Todd, and but 46 for Deering, the alleged ineligible candidate. Does the law mean that nearly 8,000 votes of honest men shall be thrown away, and that thereby the Republican party of New Hampshire shall lose a hard earned victory? Such is the result under this decision. We do not know what the majority will do, but the case embodies one of the most flagrant violations of law and order that was ever perpetrated. In Louisiana, for less cause, a revolution was precipitated. We will see, we hope, the Republicans can endure the overthrow, for the time, of their rights.

THE story of the *Bulletin* as to the reason why the President refused to speak out in the Third Term issue, is discredited,—as we think it should be. But its publication has raised the question into prominence once more. The whole discussion has seemed to us, at times, to partake of absurdity. Can any one give any good reason why, when a paper,—say the *Herald* of New York, chooses to ask an impertinent question, the President must forthwith answer? Or, should certain interested parties choose to raise a ferment, that the President of the United States shall act the part of a soother of trouble? What reason is there why he should answer this question that will not apply to any other that may be asked? We have only to consider how many persons or papers there are that will be only too ready to ask questions if an answer can only be had. The President has, very sensibly, taken the resolution that he has only to open the way for all sorts of inquiry to be annoyed exceedingly, and this he does not propose to submit to. We have yet to be convinced that his course has had the slightest unfavorable influence on elections, notwithstanding all that has been said. We do not believe that the American people have credited the story that he intends to be a Third Term candidate, or that they have so little confidence in themselves as to believe he could be without their consent. Thus there is no reason for strange stories to justify the course of the President. It is justifiable in itself.

THE Philadelphia *Times*, which apparently has some grievance against Governor Hartranft, declares he will be defeated if nominated, and urges that he decline the nomination. His administration is declared to have been negatively respectable, but he personally is regarded as the mouthpiece of Cameronism. In our view, the people of Pennsylvania desire, above all else, an efficient, worthy Governor. Whether he affiliates with or against this or that politician, is not of much moment compared with the question whether he can give a good administration. Governor Geary was not friendly with Cameron, yet he was not, generally speaking, popular with the people, nor was his administration in all particulars acceptable. Governor Hartranft, on the other hand, has not only given us a good negative administration, but an equally good positive or affirmative term. His vetoes of special legislation were positive, as was his action in repressing mining and other troubles. The interests of the State have been carefully considered and advanced. True, it has also been negatively good. He has avoided evils, and refrained from injudicious and wrongful acts—all of which are to his credit. It is, indeed, something that a hostile sheet should admit this much: and when it goes so far, it can be accepted as certain that much more is true of Governor Hartranft than it admits. We do not believe that the Governor is slavishly associated with any parties. He is a man of quiet, modest demeanor, but, at the same time, is independent of thought and life. He is not the man to be a mere torch-bearer to any one else. He will be renominated, and elected.

JOHN C. BRECKINRIDGE.

The peaceful death of a man, once Vice President of the United States, but afterward a traitor, in the sense that he fought against the Government, as a General, in an armed insurrection, illustrates quite remarkably the spirit of our times, in contrast with those of a half century ago. Aaron Burr was also Vice President, and while he did not assail the integrity of his Government, he is thought to have planned the seizure of a portion of Mexico, with a view to the establishment of an unfriendly empire. He was tried and acquitted, but was socially ostracised and ruined. He traveled from place to place, and at last, miserable and broken, died. Breckinridge was, in some particulars, like Burr. He possessed fascinating manners,—a majestic presence. His oratory was graceful and winning. His nomination as Vice President was due to a speech he made in behalf of the nomination of another. He was not, however, an intriguer, like Burr, but an outspoken, fearless man. We have ever wondered that he should have been drawn into the secession movement. His judgment and utterances were against it, and his State did not, like some others, go into secession. He had not the usual argument that he must follow his State, but voluntarily followed his political associates into the rebellion. This ruined the bright prospects of his life, and gave a blow to his reputation from which he never recovered.

He was born at Lexington, Kentucky, in 1821, and educated at Danville. He served in the Mexican war, after which he was elected to the State Legislature, then to Congress, and in 1853 was re-elected. He was offered the Ministry to Spain by Pierce, but declined it, and in 1856 was elected Vice President. In 1860 he received the South Carolina Democratic nomination to the Presidency, and was voted for by the electors of most of the Southern States. The same year he was elected United States Senator. In the Senate of the United States, he defended the Confederacy, then resigned and entered the army of the secession States, where he rose to the rank of Major General, and participated in many battles. In 1865, he was made Confederate Secretary of War. When Lee surrendered he went to Europe, where he remained till 1868, when he returned and remained in Kentucky till he died. His career illustrates the large possibilities of usefulness and honor that were thrown away, under the infatuation of a wrong idea. As a Confederate his fame and honor were tarnished; had he remained a firm Unionist, no honor was beyond his grasp.

An Olden Time Preacher.

The Rev. Mr. Williams, the ancient pastor at Dudley, was a man of godly good sense. One sultry summer day, when midway in his sermon, a rumble of distant thunder heralded the approach of a shower. Suddenly the preacher stopped, and, peering from side to side through the church windows, as if observing the tokens of a change in the weather, he quietly said: "Brethren, I observe that our brother Crosby is not prepared for the rain. I think it our duty to help our brother Crosby get in his hay before the shower." With that he descended from the pulpit, and, with several of his hearers, proceeded to Mr. Crosby's hay field, where they worked half an hour, or until the hay was housed. The staunch old clergyman then returned to the church, resumed his discourse, never omitting a point from firstly to fifteenthly, and finally dismissed his congregation, doubtless with a conviction of duty well and thoroughly done.

HOME NEWS.

Allegheny Park Commission.

The Allegheny Park Commission held their regular semi-monthly meeting last evening, Mr. J. C. Patterson in the chair.

At the request of Capt. W. W. Tyson the Committee on Grounds was authorized to prepare Monument Hill for Decoration day and to erect a speakers stand there.

After the transaction of some routine business, adjourned.

The Engine Theft.

John Burns, the only one of the men who stole the engine from the Connellsville depot on Monday night, who was arrested, was arraigned before the Mayor yesterday evening and in default of $1,000 bail he was committed to jail for a hearing on Monday. Burns is a quiet, harmless looking man and, according to his own story, he was so much inebriated that he did not know he got on an engine nor can he tell who his companions were. The act of Assembly applicable to his case makes the act he committed a felony, and should be be pushed it will likely go hard with him. He worked for Byers, McCullough & Co., on the South Side.

Printers Quit Work.

There was trouble yesterday afternoon among the printers in the composing room of the *Dispatch* office. It was occasioned by the following:

NOTICE.

Any compositor in this office belonging to or intending to join any organization, union or society will consider himself discharged

By order of O'NEILL & ROOK.

May 18, 1874.

The representatives of "the art preservative" considering the "notice" altogether too comprehensive in its scope, abandoned their cases. However, negotiations were soon commenced, and the proprietors with drawing the offensive communication, a compromise was effected, and shortly before eight o'clock last night the men returned to work.

That Troublesome Bridge.

The Board of Viewers have completed their assessment of benefits for the construction of the Sylvan avenue bridge. They embraced in it all the property between Sylvan avenue extension, Hazlewood avenue and Greenfield avenue, the property leading or contiguous to those thoroughfares, as well as the Linden Land Company's property and that abutting on Boquet and Emily streets and Sylvan avenue, west of the bridge. The assessment per acre has been definitely fixed at thirty-two dollars per acre; on lots south of the bridge, three dollars per lot, and on the property abutting Boquet and Emily streets, and on Sylvan avenue, on the west side of the bridge, a uniform assessment of fifteen cents per foot front has been made. The bridge cost about $50,000, and the assessment, which the Viewers think is as heavy as should be made, will not yield more than $28,000 or $29,000, leaving some $22,000 to be paid by the city. The report of the Viewers will be presented at the meeting of Councils next Monday.

Assessment Reductions.

The Committee on Appeals from City assessments held a meeting last evening, and allowed the following reductions on the assessments of the parties named: Pat McDonough, $1,000; Mrs. E. King, $100; Renziehausen estate, $2,000; G. L. Lauer, $8,000; Mary McM. Jones, $10,000; B. T. Jones, $4,480; S. W. Carr, $2,000; Robert Flinn, $2,000; P. Brady's heirs, $2,000, Wm. Lemon, $900; Ernest Airing, $1,850; Keystone Bank, $2,500; L. Colhouse, $300; Sam. Roberts, $1,010; Elizabeth Tomer, $6,400; W. J. Porter, $2,45 ; M. Porter, $8,472; F. Porter, $4,500, J. Porter, $2,400; W. N. McConaghy, $1,960; S. Colvin, $500; C. Fetzmeyer, $1,800. The appeals of the following persons were disallowed: Alex King. (1st ward), W. H. Dally, James Dicken, M. Comstock's heirs, Morton heirs, Alex. King (4th ward) John Fitzgerald (5th ward) John M. Faas (8th ward), John Hughes (6th ward) Ed. H. Friend, Henry Borman, Jos. Moore, John Fitzgerald (8th ward) Wm. Kennedy John Hughes (8th ward) Geo. S. Head, Geo. Hortel, Robert Stewart, John M. Faas (11th ward), John Rodell.

UNDER THE WHEELS.

A Man Run Over on the Pittsburgh, Ft. Wayne & Chicago Railroad.

A man by the name of James Dawson, who resided at No. 105 Adams street, Sixth ward, Allegheny, was found lying by the side of the Pittsburgh, Fort Wayne & Chicago R. R. track in the Allegheny Park near North avenue yesterday morning at half-past one o'clock with both legs cut off close up to his body. He was removed to Rodney's undertaking establishment, where he died at four o'clock. He was supposed to have been intoxicated at the time of the accident, and at an inquest held upon the body a verdict was rendered in accordance with the facts as stated. Deceased leaves a wife and three children.

ODD FELLOWSHIP.

Meeting of the Grand Lodge in Williamsport—Some Interesting Statistics.

The Grand Lodge of Pennsylvania of the I. O. of O. F. is now in session in Williamsport, and a large delegation from Pittsburgh is in attendance. The principal business is the reception of reports, and the installation of the Grand Lodge officers—whose names were published a few days ago in the GAZETTE. The reports were very encouraging. The Order was organized in the State December 26, 1821. It has made great progress in the Keystone State, and to-day it occupies an honorable and proud position. According to the last published report there were in the State 800 lodges in working order, with a membership of 95,197; during the year then closing, 12,021 Brothers had been relieved, and 1,341 widowed families. The amount paid for the relief of Brothers was $265,779.83; for widowed families, $19,820.18; for the education of orphans, $1,434.59, and for burying the dead, $76,557.32, making the total amount of $363,590.92 paid in 1873 for benevolent purposes.

The report of the Grand Secretary for the year just closed showed that there were 906 Lodges in the State, with a membership of about 100,000, and the financial exhibit was such as to encourage and make glad the hearts of the members.

AMUSEMENTS.

Pittsburgh Opera House.

Suil Gair was repeated last night to a larger house than on the previous evening, and Mr. Riggs in the title *role* was frequently applauded. He is an excellent delineator of Irish character. The same play will be on the boards again to-night, and at a matinee this afternoon.

Great Western Band.

It is hoped that this excellent local organization will have a good house to-morrow night, on the occasion of its concert in Library Hall. Every body in Pittsburgh knows that the Great Western Band cannot be excelled in any respect, and whenever it gives an entertainment the lovers of good music should show their appreciation of it by liberal patronage.

Library Hall.

There will be an entire change of programme at the performances to be given this afternoon and evening by the Tony Pastor troupe, which has met with immense success. To-night concludes the engagement, and as all the members of the company are stars in their line they are well worth seeing.

The Georgia Minstrels.

The celebrated troupe, known as the Georgia Minstrels, comprising twenty genuine colored artists, will give three entertainments at Library Hall this week, commencing on Friday night. On Saturday two performances will be given—afternoon and evening. Seats are for sale at Hale's.

Trimble's Varieties.

Mr. Aims is thoroughly pleasing his patrons by fresh importations of variety talent every week, and by judicious management he always keeps something new and attractive on his stage. The specialists this week with the sensation play presented every night are proving a strong card.

Prof. Fowler's Lectures.

Prof. Fowler will give two more lectures in Lafayette Hall; one this afternoon at two o'clock for ladies only, the other this evening at half past seven o'clock for gentlemen only. Those who wish to secure a phrenological examination should remember that he will not remain in the city longer than the close of the week.

Oldde Folkes Concerte.

The "Oldde Folkes Concert" will be repeated at Hazelwood on Thursday night. A special train will be run for the accommodation of those desiring to attend from the city. Tickets for sale at Hazlett's, 79 Smithfield street, and at Norton's music store, No. 203 Penn avenue.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE, }
WEDNESDAY, May 19, 1875. }

A better run of business at the banks yesterday relieved the prevailing tedium of dullness, yet nothing developed that is worthy of being called an active business display. Money accumulates, small discounts are asked, and thus the banks find it hard work to employ their funds to profit. Yet, beneath all this, the hopeful spirit predominates, and there is every assurance given that better times are coming. Our bank statements show a much larger line of deposits than did those of three months since, all of which is unfavorable, if interpreted on ordinary principles, in its influence on business. Yet the impression obtains that we are gaining in business activity,—the bank discrepancy being accounted for on the principle of more vigorous collections. Present dullness in banking and prospective recuperation are the prevailing facts of the moment.

Says the New York *Tribune* of that city: A review of the business of the week ending to-day shows no improvement in legitimate trade, but rather the reverse, with prices on the decline, except when they are sustained by speculation; and there are no hopeful signs of improvement in the near future. Merchants, manufacturers, agriculturists, and business men generally may as well at once recognize the fact that the starting point of a renewed and permanent prosperity for us is to be found in a return to correct principles of finance, and to cease as soon as possible the use of one form of debt as the legal tender for the payment of another.

The New York *Herald* is similar in tone. It says the past week has been fraught with events of unusual interest in the commercial and financial world. A month ago almost every one was looking forward to a stronger and healthier condition of trade. The return of spring weather, the opening of navigation after the long lock-up of a dreary winter, the movement of freights from the interior to the seaboard—these and other causes incidental to the season were expected to introduce a period of activity that would in a measure compensate for the dullness which has succeeded the panic. Up to the present time, however, these hopeful anticipations have not been realized, and in speculative circles there is a very prevalent feeling that the prices of all securities that cannot stand the measurement of substantial value must inevitably decline.

NEW YORK, May 18, 1875.

Money was easy at 2a3. Very choice mercantile paper is so scarce and in such demand that it sells even below 4 per cent. The quotation for first class paper is still lower—4a5. Sterling was easier at 486a486½ for sixty day and 490a490½ for sight. The produce exports for the week were $4,106,551. The customs receipts were $347,000. Gold, under the manipulation of the new clique, advanced to 116½. The carrying rate was 1 per cent., and borrowing 1a1-64. Loans were also made flat. The Assistant Treasurer disbursed $190,000. The clearings were $20,000,000. The specie shipments to Havana were $170,000. Governments were firm. Railroad bonds were quiet and strong. State bonds were dull and steady.

Stocks opened weak and lower, and declined ½ to 1½ per cent. The greatest decline was in Michigan Central, which fell off to 67½. Towards one o'clock the market became firm, and a recovery of ¼ to ¾ per cent. from the lowest point took place, except in the case of Rock Island, which declined from 104 to 103½. At the close the market was a little steadier, except for Wabash and Panama, which were heavy and lower. Wabash declined from 11¼ to 9¾, and Panama from 144 to 142¾. Atlantic & Pacific Telegraph was firm at 25¼a25½ on reports that the cable had been grappled and that the Faraday was in communication with London. Lake Shore was pressed for sale, declined to 66¼, but closed at a recovery of ⅜ per cent. Pacific Mail was weak, selling down to 37¼, but in closing dealings sold at 37⅞a37½. Union Pacific sold at 76½a75½. Erie fell off to 25¼, and rallied at the close to 25½. Western Union touched 76½, but closed at 76⅞. Rock Island recovered ½ per cent., selling at 13⅛. Missouri Pacific declined from 53 to 52, and Atlantic & Pacific preferred from 16½ to 15⅞. Northwest dropped off to 39 at the close, and preferred to 53⅞. St. Paul closed at 35⅞ and 56⅛ for common and preferred.

The gross earnings of the Union Pacific Railroad for March, 1875, show an increase of 34 per cent. over March, 1874; net earnings, an increase of 47 per cent., and operating expenses a decrease of 25 per cent.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, }
TUESDAY, May 18, 1875. }

The Crude market was firmer to-day, and, as compared with yesterday, prices were higher; immediate shipment, $1,35 freely bid and $1.40 asked. Refined, however, continues very dull, and there is scarcely enough doing to establish rates; 10 cents is still regarded as the nominal rate deliverable at Connellsville depot to go to Baltimore, but, notwithstanding the price in question affords little or no margin for profit, it is doubtful whether it could be realized. Exporters are buying very sparingly notwithstanding prices are very low, much lower than the trade generally had calculated upon, but such is the case.

The combination project has not as yet been fully consummated, so far as relates to Pittsburgh, but the indications are that nearly, if not all, our refiners will go into it. The obstacles in the way now are in regard to minor details of a local character, which, it is thought, will soon be satisfactorily adjusted.

The Barrel market continues dull and rates unsettled; city make quoted at $1,30; countries, $1,10 @1.20.

DAILY REPORT OF PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
TUESDAY, May 18, 1875. }

The general merchandise markets continue to move along quietly, and while the demand for nearly all the leading staples is confined mainly to supplying immediate necessities, there is, nevertheless, a very fair volume of business in the aggregate. While it is true that business generally is considerably behind what it usually is at this particular time, there is some comfort in the fact that it is settling down upon a solid and legitimate basis; overtrading, which has been very common here of late years, has been pretty effectually squelched out, although we have not yet recovered from its disastrous effects.

APPLES—The market continues quiet and unchanged; sales at $2@2,50 per bbl. for common to fair and $3@3,50 for prime to choice.

APPLE BUTTER—50@55 ℔ gal.

BEANS—Quotable in a round lot way at $1,80 for prime mediums and $1,90 for navies.

BUTTER—There is a fair demand foa strictly fresh, and prime to to choice roll and dairy may be fairly quoted at 25@28.

CHEESE—Prime old New York Goshen, 16½@17. Prime new Ohio Factory, 14@14½.

DRIED FRUIT—Peaches, halves, 10@10½, with a fair demand; Apples, 7@7½@8.

EGGS—The market was very generally quoted at 16 cents to-day, although dealers with but few exceptions reported that it was difficult to obtain the price named; it looks as if they would have to drop to 15c.

FLOUR—The market continues fairly active but unchanged. Spring wheat flours, $6,00@6,25 for Wisconsins and $6,25@6,50 for Minnesotas; winters, $6,25@6,50 for red and $6,75@7 for amber and white. Rye flour, $6@6,25.

GROCERIES—Sugars are still reported weak, owing to an increased stock and diminished demand but prices remain unchanged. Our advices both from Baltimore and New York, continue to report Coffee dull. A Rio dispatch, under date of 14th, says:—Receipts Coffee since the 8th instant, 65,000 bags; purchases, none; stock, 180,000 bags; price, nominal; Exchange, nominal.

GRAIN—There is still some inquiry for Wheat and little or none offering; dealers report that it cannot be sold here at current rates and yield any margin for profit. We continue former quotations: Penna and Ohio red, $1,33@1,35, and amber and white 3@5c additional. The Oat market is firm at the recent advance, and the supply is light; may be quoted at 71@72 for mixed and 73@73c for white—one car reported as having been sold at 74½, but this is an outside price. Corn continues to offer freely, and the market is weak but not quotably lower; Shelled, 85@87c, free in elevator, and Ear, 86@88, according to quality. Rye continues quiet; little or none offering, and there does not appear to be much inquiry for it; nominal at $1,15@1,20.

(A New York exchange says:—"The attempt to run up prices of grain, at the present time, appears to be one of the impossibilities, when looking at the European market, the demand for which in a measure regulates the supply. It is admitted, however, that flour has been, during all the last season, the cheapest article of food in the market, and there should be no reason why wheat should not bring an average market price with other products. There has been, however, considerable depression in the British grain markets recently, as the opening of navigation, which is very late this year, will bring out large stocks of grain from the Baltic ports, which have been waiting better markets, as well as at the Danube, the Black Sea and the Azof, which have been closed by ice, while there is yet a good supply for shipment in the United States, all which circumstances serve to depress the British markets.")

HAY—The market for baled is firmer, with an increased demand; selling at $20@24 on track, as to quality and condition.

HOMINY—4,25@4,50 ℔ bbl.

MAPLE SYRUP—$1@1,10 for gallon jugs. Maple Sugar, 13@14c ℔ lb.

POULTRY—Market bare of dressed. Live Chickens, by the coop, 60@70c ℔ pair.

POTATOES—Excepting for Peach Blows, the market is dull and weak, and prices are lower; Early Rose and Peerless quotable at 80@85c and Peach Blows at 95c@$1. We are cognizant of sales of Early Rose as low as 67c, but, as might be expected, they were not first class.

PROVISIONS—Our dispatches, both from Chicago and Cincinnati, continue to report Mess Pork and Lard dull and drooping, while for meats the market was reported steady and fairly active, but unchanged.

Hams—Extra S. C. ℔ lb	14	Lard-Prime Leaf in tierces, ℔ lb	16

New York Breadstuffs Market—Weekly Review.

NEW YORK, May 17.—Our Flour market the past week has been comparatively quiet, and on the whole not quite as satisfactory as most dealers counted on, or as the circumstances would seem to warrant; the trade have pursued the same cautious course of not buying beyond their immediate necessities, but a fair business has been done with provincial and South American buyers; this trade with South America since the 1st of January has been extremely large—far more so than we had any idea of—one mill having filled orders for 75,000 bbls; since the 1st of January the six leading mills in this city and Brooklyn have been busy day and night (with the exception of Sunday), and have ground during that time 376,000 bbls Flour; of this, 230 bbls have been taken for export, chiefly for the West Indies and South America, and the business, we learn, has been a profitable one; fully one-third of the Flour reported sold from day to day has been city-ground, hence the great excess in the sales over the receipts from week to week; the demand for Winter Wheat brands has been moderate, and the low and medium grades could only be sold largely by making concessions; this holders declined to make, and the business has been of a jobbing character; choice brands of Minnesota, valued at $6,15@6,30, have been offered quite liberally, and to sell them freely and promptly on arrival a concession of 10@15c per bbl. has been made. Shipping Extras have been offered more freely, and ordinary and common brands could only be sold readily by submitting to lower figures, and the same is true of leading and well-known brands, though the decline in these has been slight. Seconds and Winter Wheat brands have sold slowly and at lower prices, and good choice Winter Wheat Extras, also Family brands have ruled firm, but quiet. The supplies of Winter Wheat brands now in prospect never were so small as at this season of the year, at least, for 20 years past, hence holders do not evince any desire to press sales. Fancy Minnesota has been in moderate demand at former prices. New Patent Process has sold slowly at about former figures, and the supply is not excessive; the limits of most shippers' orders are below the current prices, hence the business with English and Continental buyers has been limited. The exports of the week have been 24,911 bbl, against 31,247 bbls the corresponding week last year; of the exports of the week only 6,700 bbls were for Great Britain, and 2,000 bbls to the continent.

This day week we left our Wheat market fairly active at the lower prices then current for Spring Mill; then we have had constant fluctuations in Spring and some decline in Winter, though the latter under very light offerings, has been comparatively well held, with less inquiry for the future and less confidence in June options. The liberal arrivals of Spring at the upper lake ports, and the unfavorable advices from Europe have in some measure checked the buoyancy so noticeable for some weeks past, and it cannot be denied that the large aggregate of 11,000,000 bushels in sight, with the receipts on Lake Michigan increasing, are calculated to shake the confidence of holders, and operators in June options seem sanguine of much lower figures. It is now well understood by intelligent dealers here that the Winter Wheat crop is seriously injured, but we think it too early to advance an opinion of the extent of the damage done. Much of the Wheat which now seems sickly or dead may yet produce a fair crop, but the absence of warm rains in March and April, and the cold dry winds which prevailed, and the very low temperature in April, were sufficient to dishearten farmers everywhere. The crops put in the ground early in April have in many States been replanted, and farmers are generally behindhand in their field work. The stock of old Wheat still in the hands of farmers is estimated at 37 to 40 ℔ cent. of the crop. Now should we get two-thirds of a crop of Winter Wheat, and a full average crop of Spring, we should still have a surplus for export, but we are forced to admit that our surplus cannot prove otherwise than moderate, though with a favorable season, what now appears very gloomy and unpromising, may result far more favorably than is now hoped for. Our advices from Europe are variable, but perhaps rather more favorable for their crops than hitherto. From France and Germany we learn the consumption of Wheat for cattle food still continues; coarse grains were very scarce and higher. The very backward Spring had largely increased the wants of farmers, and ere next harvest the country will be without any supplies of coarse grains. The Wheat afloat for the United Kingdom is about 8,700,000 bush., and this quantity will be rapidly diminished up to the 6th of June, when it will again increase by free shipments from this port. The quantity of Wheat for the United Kingdom from Eastern Europe is now very light; the vessels passing the Dardanelles find a better market for their Wheat in the Mediterranean than in Great Britain. The falling off in the exports from this and the Pacific coast is very marked, and we estimate them for June from this coast at about 5,000,000 bushels; in July we think they will fall below 5,000,000. The local consumption of Choice Spring Wheat is large, much more so than for some years past, all our mills working day and night, chiefly on West India and South American orders, and a good demand has prevailed for good and choice Spring for milling, in part to arrive. The business for export has been limited; about one-third of the exports were to the Continent. The exports from this port the past week have been 173,489 bushels, against 731,775 do. the corresponding week last year, and from the coast they are only 254,489 bush. From the North-west we learn that the farmers got through seeding on the 8th of May, and report considerable frost in the ground still. The area under Spring Wheat we learn is about the same as last year. The season is about three weeks later than last year, and warm rains are much desired.—*Tribune.*

THE substantial steamer Fanny Tatum, Captain John A. Williams, is announced to take her departure for St. Louis to-day, and she will receipt through to Nashville, Memphis and New Orleans. Mr. Jas. Greenough has charge of the office.

A NEW ORLEANS paper says. Captain Andrews, we are reliably informed, wishes those boatmen that have good boats to make propositions to him for the purpose of transporting 200,000 tons of stone from the upper rivers to the mouth of the river.

THE Shannon reshipped over 200 tons at Cincinnati, on Monday, for Pittsburgh, on the Exchange, including 190 tons pig iron, 50 tons of blooms, and 30 bales of cotton. The Shannon will undergo thorough renovation before she turns her wheels again.

THE Great Republic left New Orleans with 431 hogsheads and 600 boxes of sugar, also 330 tons miscellaneous freight and about 60 cabin and 100 deck passengers. Among the passengers were Wash Floyd, late of the Exporter, and T. J. Darragh, late of the Paragon.

THE entire stock of the John B. Maud Transportation Company was purchased at St. Louis, Monday, by Capt. J. T. West and Jacob Swivel; terms private. The Keokuk Northern Line purchased the Savanna on Saturday from Captain Ashbury and others; terms private.

CAPTAIN JOSEPH LA BARGE, of the Chambers, is a veteran in his profession. He made his first trip up the Missouri in 1831, going to the mountains, and has made the same trip every summer since, with the exception of three summers. He is now over sixty and looks hearty, though he says he expects he has made nearly his last mountain trip on the Big Muddy.

THE Sioux City *Journal*, of the 13th says:—The steamer Katie P. Kountz landed at this city last evening. She made the trip from Omaha in 6 days, at least 2 days quicker than any boat that has come up the crooked creek this season. This honor, however, is explained by the fact that she had a quantity of coal on board sufficient to make her independent of wood piles.

The Voice of the Great West.

The voice of the great West accords to Hostetter's Stomach Bitters the foremost place among specifics for malarial disease, and this opinion is echoed wherever upon this continent the Bitters have been introduced as a remedy for intermittent and remittent fevers. Those maladies being the peculiar scourge of vast regions of country in the Western and South-western States, it is not surprising that the Bitters should be the great medicinal staple of such localities, or that their inhabitants should regard this article as indispensable in the household. The experience of the western emigrant proves that it is the very best means of acclimating him to unaccustomed air or water; and old residents of fever and ague regions say that it is the only thing that protects them with certainty against the visitation of miasmatic disease. An equally high estimate is placed upon its virtues as a remedy for stomach, bowel and bilious complaints, and as a general tonic and corrective.

VEGETINE IS The Great FAMILY MEDICINE AND HEALTH RESTORER.

General Debility.

Debility is a term used to denote deficiency of blood. The nutritive constituents of the blood are in less than their regular proportion, while the watery part is in excess. Debility is of frequent occurrence. It is incident to a variety of diseases. The lower limbs are apt to be swollen. The patient is feeble, and cannot bear much exertion. The circulation is irregular, but almost always weak. Palpitation of the heart is a very common symptom. Violent motion often throws the heart into the most tumultuous action. The vital functions are languidly performed. The muscular strength is diminished; fatigue follows moderate or slight exercise. The breathing, though quiet when at rest, becomes hurried and even painfully agitated under exertion, as in running, ascending heights, etc. The nervous system is often greatly disordered. Vertigo, dizziness, and a feeling of faintness are very common. Violent and obstinate neuralgic pains in the head, side, breast, or other parts of the body, are also frequent attendants upon the disease. The secretions are sometimes diminished. In females the menses are almost always either suspended or very partially performed. The bile is scanty, and costiveness, with unhealthy evacuations from the bowels and dyspeptic state of the stomach are extremely common symptoms.

MARVELLOUS EFFECT.

H. R. STEVENS:

Dear Sir—I have used VEGETINE, and feel it a duty to acknowledge the great benefit it has done me. In the spring of the year 1862 I was sick from general debility, caused by overwork, want of sleep and proper rest. I was very weak and much emaciated. I tried many remedies, without receiving any benefit from any of them, until I was persuaded to try VEGETINE. Before I had taken this one week my improved condition gave me renewed hope and courage. I continued to take it every day, gaining more strength until I was completely restored to health. The effect of this Remedy, in the case of general debility, is indeed marvellous.

ELIZABETH A. FOLEY,
21 Webster street, Charlestown, Mass.

SWOLLEN LIMBS.

LEBANON, N. H., Jan. 29, 1870.

MR. STEVENS:

Dear Sir—I write you this note to inform you of the effect of your "Blood Purifier" upon my system. When I commenced taking it, a year ago, I was very much debilitated. My limbs were swollen so that it was impossible for me to get into or out from a carriage, and very painful to go up or down stairs. Indeed, I could scarcely stand on my feet. My appetite was gone, my strength failing rapidly. After using your medicine for a few weeks I began to improve. My appetite improved and my strength returned. I can now perform my duties as a nurse with my wonted ease, and I feel I owe it to VEGETINE. Yours gratefully,

MRS. C. A. H. TILDEN.

A PERFECT CURE.

CHARLESTOWN, June 11, 1861.

MR. H. R. STEVENS:

Dear Sir—This is to certify that VEGETINE made a perfect cure of me when my attending physician had pronounced my case consumption, and said I could not survive many days.

MRS. LEDSTON, 35 Cook street.

The facts stated by Mrs. Ledston are personally known to me, and they are true.

A. D. HAYNES.

Would not be Without

VEGETINE FOR TEN TIMES ITS COST.

The great benefit I have received from the use of VEGETINE induces me to give my testimony in its favor. I believe it to be not only of great value for restoring the health, but a preventive of diseases peculiar to the spring and summer seasons.

I would not be without it for ten times its cost.
